

TIMETABLE

Acade
Mix

MC: Jasmine & Satoru

13:00 - 13:10 **Opening Remarks**

1st
session

13:10 -

Kawaguchi Kohei "Search for adhesions factors and functional analysis in grafting"

Huang Tzu-Ting (Tammy) "Neural basis of aging in sensory perception and learning behaviors"

Nakai Daichi "Reconstruction of locomotions in prehistoric animals by bone histology"

10 mins break

2nd
session

14:20 -

Qianqian Luo "Search for grafting enhancers by chemical screening"

Thanachok Taticharoen "Factor influencing in cracking of polished young coconut"

Oka Hiroya "Construction of transcript regulation mechanism prediction model based on binding motif environment of Transcription factor AoXlnR in *Aspergillus oryzae*"

10 mins break

3rd
session

15:30 -

Tanaka Yoshiki "Development of Multifunctionalized Fluorescent Dye and Application to Cell Imaging"

Jia Xin Yap (Jasmine) "Small molecule germination inhibitors of parasitic plant *Striga hermonthica*"

Nakajima Haruna "A Development and an Application of Carbon Nanotube stamp"

10 mins break

16:50 - 17:00 **Award & Closing**
