

Dr. Anis Tlili
(ICBMS, University of Lyon 1)

"Catalyzed and non-catalyzed Strategies for the Valorization of Small Molecules"

Dr. Tlili studies a wide range of homogeneous catalysis focusing on the transformation of small molecules. His research includes transition metal-catalyzed reactions, photoredox catalysis, and fluorine chemistry. A wide range of transformation will be presented in the lecture.

16:30-18:00, October 26 (Thu), 2023@Room 142 (4th floor, #1 building, Sch. of Eng.)
Host: Makoto Yamashita (Grad. Sch. of Eng.) (makoto@oec.chembio.nagoya-u.ac.jp)
