

日時：2023年5月26日（金曜日） 10：00～12：00

対象：対象は問いません 開催方法：対面

第170回 創薬科学セミナー

Korea-Japan Joint Meeting on Biomolecules and Nano-particles

ES Hall, Nagoya University
2023 May 26 10:00-12:00

INVITED LECTURES

Dr. Jonghoon Choi

"Oxygen filled nanosomes for biomedical applications"

Dr. Hiroyuki Imanaka

"Harnessing biomolecular potential: Strategies for immobilization, orientation control, and functional deployment"

Dr. Masayoshi Tanaka

"Explorations of peptides for nanoparticle green synthesis and of proteins for membrane curvature sensing"

Dr. Ryuji Kato

"Cell-selective surface design using short-peptides and data science"

THE SPEAKERS

Dr. Jonghoon Choi
Chung-Ang University

Dr. Ryuji Kato
Nagoya University

Dr. Hiroyuki Imanaka
Okayama University

Dr. Masayoshi Tanaka
Tokyo Institute of Technology
